W55RP20 : Industrial RS422/RS485 Ethernet Converter

WIZnet Chip

W55RP20

Industry

RS-422/485 Ethernet Converter

The solution

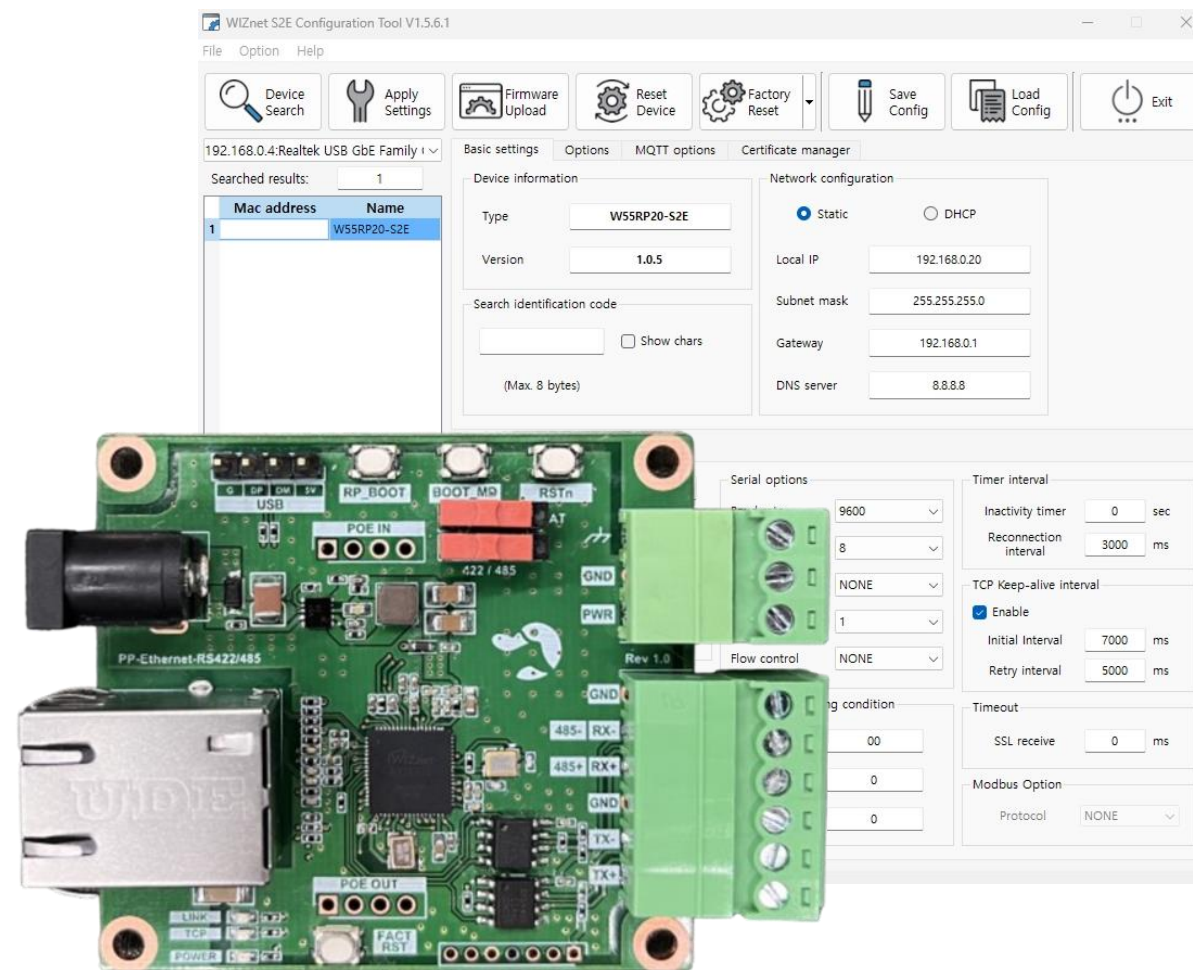

Platypus easily developed its product using WIZnet's Custom service, which provided firmware, hardware, and certification support. By leveraging WIZnet's open firmware, RS-422/485 conversion was simple, with optional firmware updates for flexibility.

Location

South Korea
